### **Negotiator's Report**

#### Old Business

- Reassigned Time Discussion
  - Stipends for ILO/SLO work. (waiting to hear back from District, not anticipating any difficulties)

#### New Business

- PT Parity: BOT & District are interested in hearing about this, expressed concern, but no real discussions yet.
- As we're waiting to hear about the Nov. budget/elections, like many locals, we're discussing tabling some of the negotiations until then, meeting less frequently, addressing urgent issues, of course.
- Health Care Task Force has started meeting: it's giant and will continue twice a month through summer. Goal is to find out what else is out there, what's available (hasn't been looked at in years).
